

Material Safety Data Sheet

Reference to ISO 11014:2009

Section 1 - Chemical Product and Company Identification

Chemical product identification

Sample Description: Colorless to yellow, aroma of jasmine flower with a cool feeling of mint.

Recommended uses: Perfume

Restrictions on use: N/A

Company identification

Manufacturer: Huiqili (Guangzhou) Supply Chain Technology Co., Ltd.

Address: Room 201, Building B, No. 13, Wanggang Industrial Zone, Baiyun District, Guangdong Province, China

Tel: 86-18270720710

Fax:

Post code: 510080

Further Information obtainable from

Emergency telephone: 86-18270720710

E-mail: hiqili.co@gmail.com

Section 2 - Hazards Identification

Emergency overview: Harmful if swallowed. May be harmful in contact with skin. Causes skin irritation. Causes serious eye damage. May cause an allergic skin reaction. May cause respiratory irritation; or May cause drowsiness or dizziness. Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects.

Classification according to GHS

Acute toxicity, oral(4)

Acute toxicity, dermal(5)

Skin corrosion/irritation(2)

Serious eye damage/eye irritation(1)

Skin sensitization(1)

Specific target organ toxicity, single exposure(3)

Hazardous to aquatic environment, acute hazard(1)

Hazardous to the aquatic environment, long-term hazard(1)

Label elements

Hazard pictogram(s):

Signal word: Warning

Hazard statement(s):

H302 Harmful if swallowed
H313 May be harmful in contact with skin
H315 Causes skin irritation
H318 Causes serious eye damage
H317 May cause an allergic skin reaction
H335 May cause respiratory irritation; or
H336 May cause drowsiness or dizziness
H400 Very toxic to aquatic life
H410 Very toxic to aquatic life with long lasting effects

Precautionary statement(s):

Pretention:

P264 Wash...thoroughly after handling.
P270 Do not eat, drink or smoke when using this product.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P261 Avoid breathing dust/fume/gas/mist/vapours/spray.
P272 Contaminated work clothing should not be allowed out of the workplace.
P260 Do not breathe dust/fume/gas/mist/vapours/spray.
P273 Avoid release to the environment.

Response:

P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER/doctor/...
P330 Rinse mouth.
P312 Call a POISON CENTER/doctor/.../if you feel unwell.
P302 + P352 IF ON SKIN: Wash with plenty of water/...
P332 + P313 If skin irritation occurs: Get medical advice/attention.
P362 + P364 Take off immediately all contaminated clothing and wash it before reuse.
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 Immediately call a POISON CENTER/doctor/...
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P363 Wash contaminated clothing before reuse.
P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P312 Call a POISON CENTER/doctor/.../if you feel unwell.
P391 Collect spillage.

Storage:

P403 + P235 Store in a well-ventilated place. Keep cool.

P403 + P233 Store in a well-ventilated place. Keep container tightly closed.

P405 Store locked up.

Disposal:

P501 Dispose of content/container to...

Environmental hazards: No relevant information.

Important symptoms: See Section 11 for more information.

Emergency overview: In case of accident or if you feel unwell, seek medical advice immediately. See Section 4 for more information.

Section 3 - Composition, Information on Ingredients

Chemical characterization: Mixture

Component	CAS No.	In% By Weight
Melaleuca Alternifolia Leaf Oil	68647-73-4	≤ 100

Section 4 - First Aid Measures

Description of first aid measures

General information Normal use does not require special measures, industrial production in the long term, refer to the following:

After eye contact

Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. Seek medical attention without delay; if pain persists or recurs seek medical attention. Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.

After skin contact

Immediately remove all contaminated clothing, including footwear. Flush skin and hair with running water(and soap if available). Seek medical attention in event of irritation.

After inhalation

If fumes, aerosols or combustion products are inhaled remove from contaminated area. Other measures are usually unnecessary.

After swallowing

If vomiting occurs, lean patient forward or place on left side(head-down position, if possible)to maintain open airway and prevent aspiration. Observe the patient carefully. Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious. Give water to rinse out mouth, then provide liquid slowly and as much as casually can comfortably drink. Seek medical advice.

Personal protective equipment for first-aid responders: Not available.

Most important symptoms/effects, acute and delayed: Not available.

Indication of immediate medical attention and special treatment needed:

Any material aspirated during vomiting may produce lung injury. Therefore emesis should not be induced mechanically or pharmacologically. Mechanical means should be used if it is considered necessary to evacuate the stomach contents; these include gastric lavage after endotracheal intubation. If spontaneous vomiting has occurred after ingestion, the patient should be monitored for difficult breathing, as adverse effects of aspiration into the lungs may be delayed up to 48 hours.

Section 5 - Fire Fighting Measures

Suitable extinguishing media: Use extinguishing agent suitable for local conditions and the surrounding environment. Such as dry powder, CO₂.

Unsuitable extinguishing media: Not available.

Specific Hazards arising from the chemical: Not available.

Specific protective actions for fire-fighters:

Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.

Section 6 - Accidental Release Measures

Normal use does not require special measures, industrial production in the long term, refer to the following:

Personal precautions:

Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation.

Protective equipment:

No further relevant information available.

Emergency procedures:

Remove ignition sources, evacuate area. Sweep up using a method that does not generate dust. Collect as much of the spilled material as possible, placed the spilled material into a suitable disposal container. Keep spilled material out of sewers, ditches and bodies of water.

Environmental precautions:

Do not allow material to be released to the environment without proper governmental permits.

Methods and materials for containment and cleaning up:

All waste must refer to the United Nations, the national and local regulations for disposal.

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

Section 7 - Handling and Storage

Normal use does not require special measures, industrial production in the long term, refer to the following:

Precautions for safe handling:

Storage in a cold, dry, well ventilated environment. Store away from food and water supplies. Wash your hands thoroughly before and ate and drink. Storage of chemicals needed to prevent the generation and accumulation of static electricity when handling the container. Stay away from taboo, such as strong oxidizing agents.

Information about fire and explosion protection

Not available.

Conditions for safe storage, including any incompatibilities:

Requirements to be met by storerooms and receptacles

Store in a cool place. Keep container closed, store in a dry and ventilated place.

Information about storage in one common storage facility

Moisture absorption.

Further information about storage conditions

Keep container tightly sealed.

Specific and use

No further relevant information available.

Section 8 - Exposure Control, Personal Protection

Permissible concentration:

Engineering control:

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

Remove all soiled and contaminated clothing immediately.

Wash hands before breaks and at the end of work.

Personal Protective Equipment

Respiratory protection: Wear suitable protective mask in order to reduce the respiratory system. A large number of leakage, wear chemical protective clothing, including self-contained breathing apparatus.

Hand Protection: Wear appropriate protective gloves to reduce skin contact.

Eyes Protection: Wear safety goggles or eye protection combined with respiratory protection.

Skin and Body Protection: Working environment required, wear suitable protective clothing to minimize contact with skin. The type of protective equipment must be according to the concentration and the content of certain hazardous substances in the workplace.

Section 9 - Physical and Chemical Properties

Information on basic physical and chemical properties

Colour: Colorless to yellow; Color range in accordance with the prototype.

Physical State: liquid

Odour: Aroma of jasmine flower with a cool feeling of mint.

Odour threshold: Not available.

pH: /

Melting point/ freezing point: Not available.

Initial boiling point and boiling range: Not available.

Flash Point: $\geq 90^{\circ}\text{C}$ (Closed cup)

Evaporation rate: Not available.

Flammability (solid, gas): Not available.

Explosion Limits (vol% in air): Not available.

Vapour pressure, kPa at 20°C: Not available.

Vapor density: Not available.

Density/Relative density(d_{25}^{25}): 0.885-0.906

Refractive index(n_D^{20}): 1.475 - 1.482

Solubility (ies): Not available.

Partition coefficient: n-octanol/water: Not available.

Auto-ignition temperature: Not available.

Decomposition temperature: Not available.

Viscosity: Not available.

Section 10 - Stability and Reactivity

Chemical Stability: Stable.

Possibility of hazardous reaction: Data not available.

Conditions to Avoid: Incompatible materials.

Incompatibilities Materials: Data not available.

Hazardous Decomposition Products: Carbon oxide.

Section 11 - Toxicological Information

Acute Toxicity: Not available.

Skin corrosion/irritation: Not available.

Serious eye damage/irritation: Not available.

Respiratory or Skin sensitization: Not available.

Germ Cell mutagenicity: Not available.

Carcinogenicity: Not available.

Reproductive toxicity: Not available.

Specific target organ toxicity-Single exposure: Not available.

Specific target organ toxicity-Repeated exposure: Not available.

Aspiration hazard: Not available.

Information on the likely routes of exposure: Not available.

Eye: Not available.

Skin: Not available.

Ingestion: Not available.

Inhalation: Not available.

Section 12 - Ecological Information

Ecological Toxicity: No further relevant information available.

Persistence and degradability: No further relevant information available.

Bioaccumulative Potential: No further relevant information available.

Mobility in Soil: No further relevant information available.

Other adverse effects: No further relevant information available.

Section 13 - Disposal Considerations

Waste treatment methods

Recommendation:

Consult state, local or national regulations to ensure proper disposal.

Uncleaned packaging

Recommendation: Disposal must be made according to official regulations.

Section 14 - Transport Information

UN Number IATA IMDG, Model Regulation	N/A
UN Proper shipping name IATA, IMDG, Model Regulation	N/A
Transport hazard class(es) IATA, IMDG, Model Regulation	N/A
Packing group IATA, IMDG, Model Regulation	N/A
Packing Sign IATA, IMDG, Model Regulation	N/A
Environmental hazards Marine pollutant	No
Special precautions for user	Not applicable

Section 15 - Regulatory Information

Safety, health and environmental regulation/legislation specific for the substance or mixture

No further relevant information available.

Section 16 - Additional Information

Issue Time: Wednesday, 23 September 2026

Issue Department: Regulatory affairs department

Modification record:

Notice to reader

The information in this safety data sheet is based on the properties of the material known to BOTON at the time the data sheet was issued. The safety data sheet is intended to provide information for a health and safety assessment of the material and the circumstances under which it is packaged, stored or applied in the workplace. For such a safety assessment BOTON FLAVORS & FRAGRANCES holds no responsibility. This document is not intended for quality assurance purposes.
